

MUHAMMAD SAAD ALI

DATA SCIENTIST

PROFESSIONAL SUMMARY

Data Science graduate with hands-on experience in machine learning, NLP, computer vision, and AI-driven application development. Skilled in building end-to-end ML systems including data preprocessing, feature engineering, model evaluation, analytics pipelines, and intelligent automation systems. Experienced in Python, Scikit-learn, OpenCV, Flask, and deep learning frameworks with strong interest in applied AI research and predictive modeling.

EXPERIENCE

Machine Learning Engineer

January 2024 - Present | Independent ML & AI Projects, Rahim yar khan, Punjab

- Built machine learning and NLP-based applications using Python and Scikit-learn
- Developed AI-powered interview evaluation and analytics systems
- Performed data preprocessing, feature engineering, and model evaluation
- Worked on computer vision and image processing projects using OpenCV
- Implemented predictive modeling and classification workflows
- Conducted exploratory data analysis (EDA) and visualization on structured datasets
- Optimized ML model performance using hyperparameter tuning techniques
- Collaborated on research-oriented AI and data science academic projects

EDUCATION

Bachelor of Data Science in Data Science

Khawaja Fareed University of Engineering & Informa, Rahim Yar Khan, Punjab, Pakistan

- Machine Learning
- Artificial Intelligence
- Natural Language Processing
- Image Processing & Analytics
- Deep Learning
- Data Mining
- Statistics & Probability
- Computer Networks

CERTIFICATIONS

- Machine Learning Specialization – Coursera
- Python for Data Science – IBM
- Deep Learning Fundamentals – Coursera
- Data Analysis with Python – freeCodeCamp

CONTACT

SKILLS

- Python
- Machine Learning
- Data Analysis
- Natural Language Processing (NLP)
- Feature Engineering
- Scikit-learn
- OpenCV
- Deep Learning
- Flask
- Predictive Modeling
- Computer Vision
- Pandas & NumPy
- Model Evaluation
- Hyperparameter Tuning
- Exploratory Data Analysis (EDA)
